LICENSE DEACTIVATION GUIDE

How to deactivate or cancel your Advanced Word Template license

Free up an environment, or stop your subscription completely.

1 Open the Advanced Word Templates app

Open the **Advanced Word Templates** model driven app and go to **License Management**. You will see the **Subscription** section with your activated license.

Then choose what you need:

Deactivate

Removes the license from this environment only. Your subscription continues and you can use the license elsewhere.

Cancel subscription

Stops the subscription and all future payments. This cannot be undone.

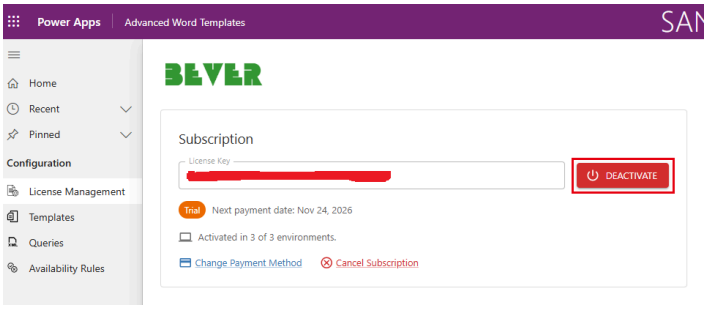

2 OPTION A

Deactivate the license on this environment

Use this when you want to keep your subscription but free this environment, for example to use the license in another one.

Click `Deactivate`.

Good to know You can activate the license on this environment again at any time. One license can be active in up to 3 environments at the same time.
