BEVER

LICENSE DEACTIVATION GUIDE

How to deactivate or cancel your Editable Table Premium license

Free up an instance, or stop your subscription completely.

1 Open the Editable Table app

Open the **Editable Table** model driven app. You will see the **Editable Table Configuration** page with your activated license.

Then choose what you need:

Deactivate

Removes the license from this instance only. Your subscription continues and you can use the license elsewhere.

Cancel subscription

Stops the subscription and all future payments. This cannot be undone.

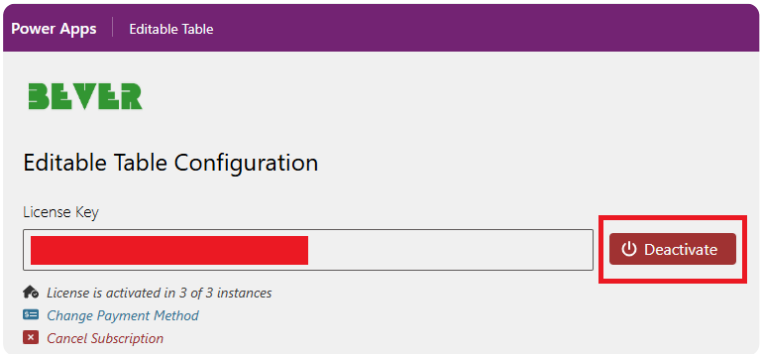

2 OPTION A

Deactivate the license on this instance

Use this when you want to keep your subscription but free this instance, for example to use the license in another one.

Click `Deactivate`.

Good to know You can activate the license on this instance again at any time. One license can be active in up to 3 instances at the same time.

3

OPTION B

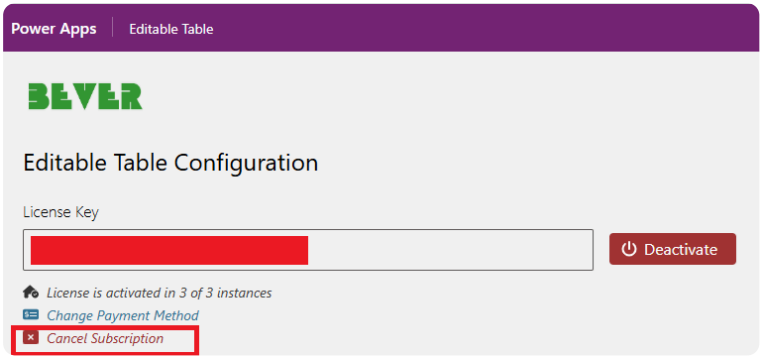

Cancel your subscription

Use this when you want to stop using Editable Table Premium completely. Your card will no longer be charged each month.

Click **Cancel Subscription**.

This cannot be undone After you cancel, the subscription cannot be restored. To use Editable Table Premium again, you need to start a new subscription.

During the free trial If you cancel within the 14 day trial, nothing is charged.
